OEP Biology

The M.Sc. OEP-Biology is a research-oriented, international study programme of 2 years, with more than 35 elective modules (modularized according to ECTS). The programme provides a broad understanding of all aspects of Organismic Biology in an evolutionary context.

DISCIPLINES INVOLVED:

- Evolutionary Biology and Ecology
- Morphological and Molecular Systematics
- Phylogeny
- Palaeobiology
- Physiology and Ethology

INSTITUTIONS INVOLVED:

- Institute of Evolutionary Biology and Ecology
- Institute of Zoology
- Zoological Research Museum Alexander Koenig
- Steinmann Institute, Dep. of Palaeontology
- Goldfuß-Museum of Palaeontology
- Botanical Institutes and Botanical Garden

YOUR PROFILE:

- Interested in organisms and biodiversity
- Interested in broad and interdisciplinary research
- Interested in field and laboratory work
- Good standard in the English language

ACADEMIC REQUIREMENTS:

B.Sc. in the Biology- or Geo-Sciences (with emphasis on Palaeontology).
